E-mail: (Times New Roman, 10 pt, *italic*, right-aligned)

Abstract (*Times New Roman, size 10 pt, italic, justified alignment*)

The abstract will contain approximately 150-200 words and it should emphasize the reasons for the research problem selected, the main research methods used and some key findings, focusing on the original contributions of the author(s). It is recommended to avoid using references within this paragraph.

Keywords: (*Times New Roman, 10 pt, italic, justified alignment*)

It is recommended to select 4-6 keywords, separated by commas.

JEL Classification: (Times New Roman, 10 pt, bold, left-aligned) – **for papers in the field of economics.**

In order to choose the JEL Classification for your paper, you can access the following link:

<https://www.aeaweb.org/econlit/jelCodes.php?view=jel>.

1. Introduction (Times New Roman, size 11 pt, bold, centred)

The Introduction (Times New Roman, 11 pt, normal, justified alignment) will highlight the essence, motivation and rationale of research, identification of the problem/issues, an overview of the compartments and ideas to be addressed in the content of the paper.

2., 3., ..., n. PAPER SECTIONS (Times New Roman, size 11 pt, bold, centred)

The basic content of the paper will be divided into compartments according to this model. Depending on the preferences of the author/authors it is allowed to include other compartments too. The compartments will be numbered consecutively (using figures 2, 3, 4, ..., n). Leave two blank lines before the compartments and a blank line after the title of compartment.

2. The degree of investigation of the problem currently, and purpose of research

The achievements and progress made so far in the field will be analysed, the relationship between existing results in the theory and/or practice in the field and own research of the author/authors will be expressed. The author/authors will clearly identify the purpose of research.

3. Methods and materials applied

The compartment shall contain the description of research algorithm, presentation of the main methodological procedures and investigative tools. Materials applied will be subject to analysis by highlighting notorious scholars, progressive ideas, etc.

4. Results obtained and discussions

This compartment will register the original research of the author / authors with discussions on the topic and the results achieved.

The sections will have to respect the following editorials rules:

- all the text must be typed in one column format, using Microsoft Word, size 11 pt, normal, justified alignment, 1,00 line-spacing;
- it is highly recommended to avoid using special styles (**Bold**, *Italic*, Underline). The **Bold style will only be used for emphasizing the titles, the sections and the sub-sections**, while *the Italic style will only be used for the abstract and keywords*;
- the references for quotations used in the text must appear in square brackets, for example [1, p.23], the list of references forming the REFERENCES section;
- the figures and tables will be numbered and each of them should have a title according to their content, a legend and a reference. It is allowed only high quality scanned figures;
- tables will be inserted in the article using simple border / margin. Both the number and the title of the table will be placed immediately above the table, using Times New Roman, size 12 pt, normal, centred. The cells will be filled in by using Times New Roman, size 10 pt, normal. The source of the data presented in the table will be shown under the table, using Times New Roman, size 10 pt, normal, left alignment.

Template of table insertion in the paper

Table 1: Title (Times New Roman, 11 pt, normal, centred)

Times New Roman, 10 pt, normal	Times New Roman, 10 pt, normal	Times New Roman, 10 pt, normal

Source: Title (Times New Roman, 10 pt, normal, left-aligned)

- The figures will be separated from the rest of the text by using a simple border. The number and the title of the figure/graphic will be placed immediately under the figure/graphic, centred on the page.

Template of figure insertion in the paper

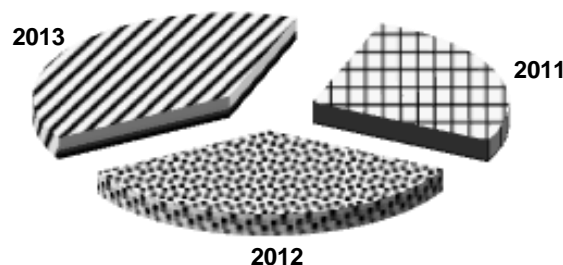

Figure 1: Title (Times New Roman, 11 pt, normal, centred)

Source: Title (Times New Roman, 10 pt, normal, left-aligned)

- The Maths formulas will be centred and numbered as shown below:

$$y = f(x) \quad (1)$$

n +1 . Conclusions (Times New Roman, 11 pt, bold, centred)

The paper's conclusions follow numbering list that was started before, similar to the rest of the sections.

Conclusions should reflect, according to the appropriate scope of originally proposed research, the synthesis of the main ideas and results achieved by the author/authors in the investigated area, which were exposed in the article.

The compartment may also contain recommendations regarding the analysed problem solving (not mandatory).

REFERENCES (Times New Roman, 11 pt, bold, CAPS, centred)

The References section is not numbered. This section will comprise the list of the references, in alphabetical order, using Times New Roman, size 10 pt, normal, justified alignment. Examples of how to edit References section:

THE REVIEW PROCESS

of scientific articles submitted by authors for publication in the Economic and Engineering Studies publishing series of the Scientific Journal of Cahul State University "Bogdan Petriceicu Hasdeu", approved by the University Senate.

The article submitted for publication follows peer-review process organized in two stages of assessment:

- 1. editors of the Editorial Board;*
- 2. two reviewers from home and/or abroad with competence in the field of research.*

Manuscript assessment is carried out on an anonymous basis without identifying the author/authors.

At both stages of reviewing process the recommendations and comments of reviewers are made known to the author/authors in order to improve the quality of the publication.

The manuscript, rejected at the first stage of evaluation, is forwarded for repeated review to an expert in the field (professor, associate professor) from the Cahul State University "Bogdan Petriceicu Hasdeu".

Only after acceptance of article at first stage, the manuscript can be sent for evaluation by two reviewers from home and/or abroad (professor, associate professor).

The manuscript can be:

- 1. Accepted in its original form;*
- 2. Accepted with minor changes;*
- 3. Accepted with substantial changes;*
- 4. Rejected.*

The Article accepted by the reviewer on condition of making substantial changes can be re-evaluated by the same expert in the scientific field for compliance to recommendations, elimination of inadequacies and improvement of the quality of intellectual work of the author.

In the situation where there are major discrepancies between the opinions of reviewers at the second stage of the review process, the article is sent to a third reviewer.

The manuscript rejected at the second stage of the review process can be presented by the author repeatedly only after a fundamental transformation of the article.

The final decision on the publication of articles in the current issue of the journal shall be adopted under the advisory of the Editorial Board members and consideration of reviewers' recommendations from both phases of the review process.
